Quartz MATERIAL

It is so unique stone that it can only come from one of the best compounds that the Nature has to offer with the highest technology of the best of Nature. The touch and weight of a natural stone, but with a superior quality. Craftsman Ltd 94% of natural quartz, one of the most resistant and beautiful elements of the Nature, allows to create from the most beautiful kitchen worktop to the most innovative business project. Its colour consistency is incomparable to any other natural stone.
